See below for which diodes to install.

Full-wave bridge, isolated winding
Install D1 - D4 only

Full-wave CT, isolated winding
Install D2 & D4 only

Half-wave using bias tap on common winding
Install D2 only

Values shown for output range of -50V to -80V
For other output ranges:
VOUT1 = 2.5 * ((R8 / (R7 + RV2)) + 1)
VOUT2 = 2.5 * ((R3 / (R5 + RV1)) + 1)
